Objective

The purpose of this document is to guide user on how to setup Cognos application

How to setup Cognos Application

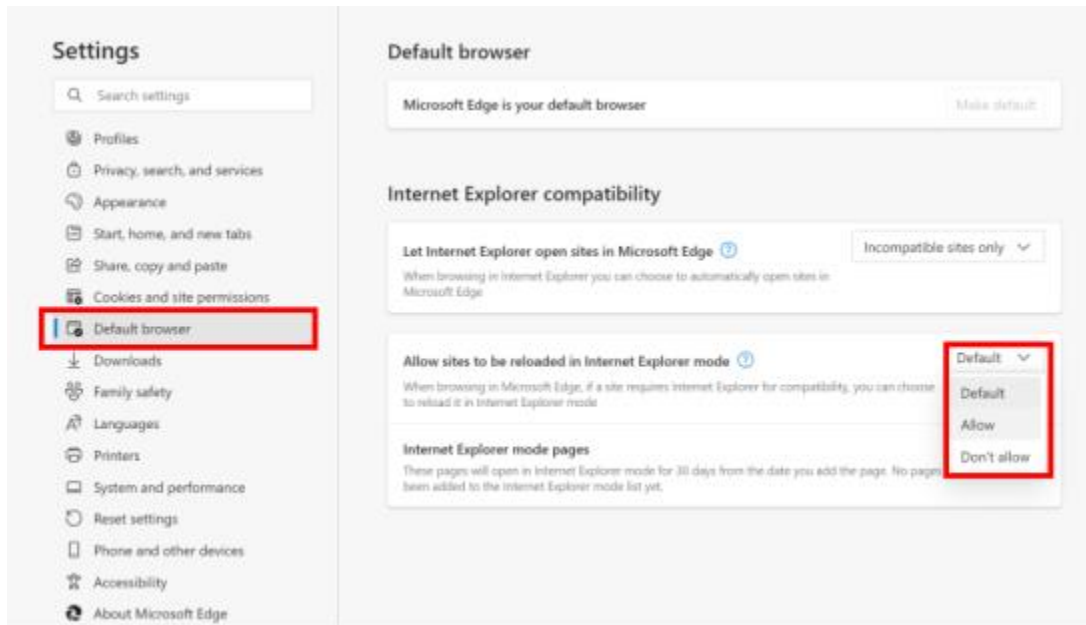

Setting up Cognos in Microsoft Edge Browser with IE Mode

1. Go to Setting → Default Browser with link “edge://setting/defaultBrowser”

2. Allow Internet Explorer Mode

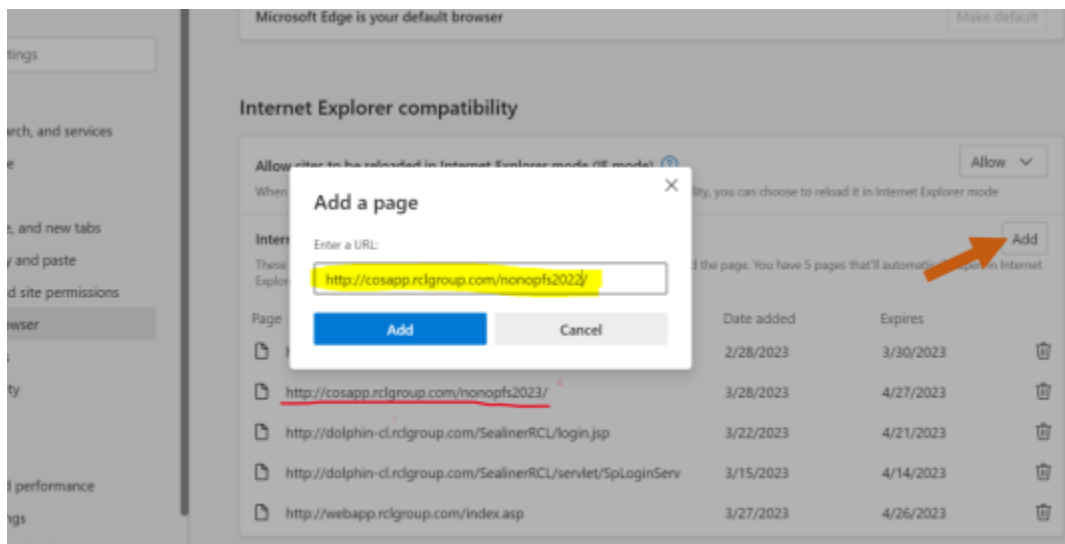

Click on **Default browser** on the left-hand side, then click on the dropdown menu for **Allow sites to be reloaded in Internet Explorer mode**. You may see a message explaining Internet Explorer mode, click to the drop-down menu and select **Allow**.

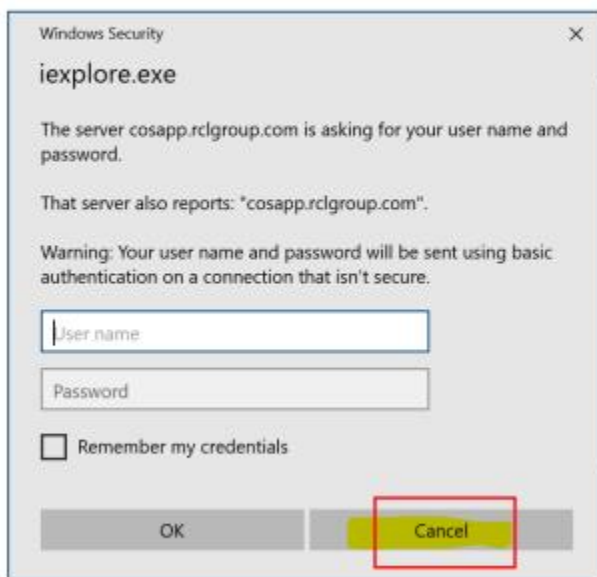

3. Click at Add button and enter URL link of Cognos for each year then click Add and then close this page

<http://cosapp.rclgroup.com/nonopfs2022>

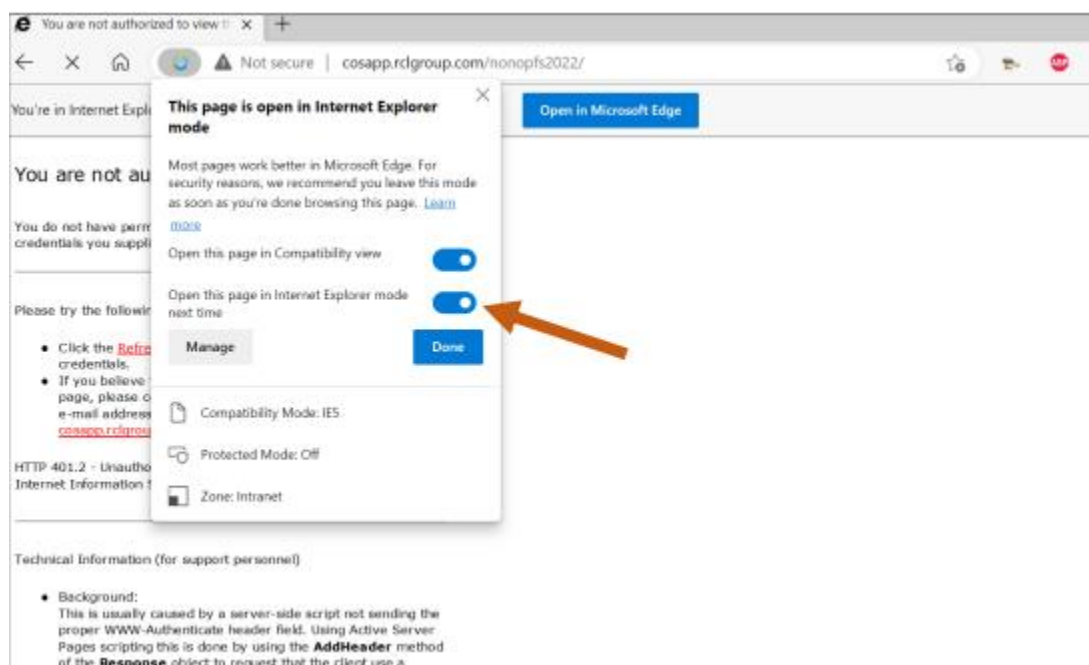

<http://cosapp.rclgroup.com/nonopfs2023>

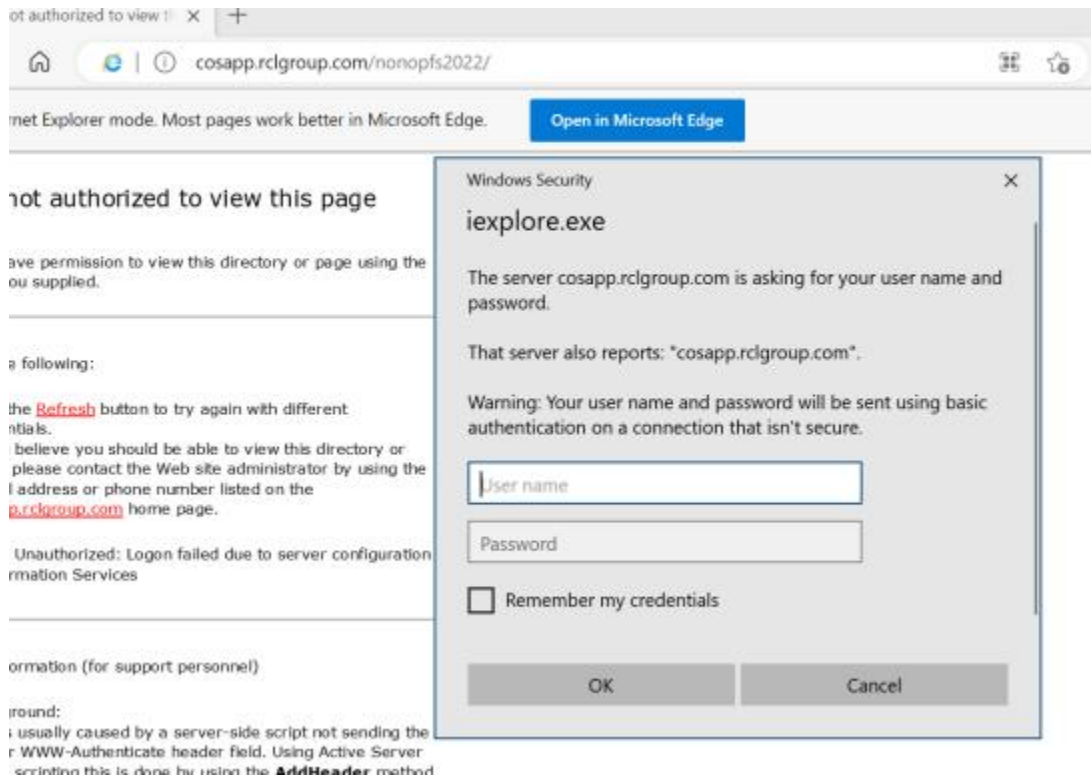

4. Open the MS Edge entering Cognos URL link only <http://cosapp.rclgroup.com/nonopfs2023/>
When it has pop-up for logging in Username a& Password, please click at Cancel first.

5. Do not forget to “Click enable Open this page in Internet Explorer mode next time”.

6. After Setup IE Mode Successfully, please try to access Cognos and Login again.

The screenshot shows a web browser window with the address bar displaying `cosapp.rclgroup.com/nonopfs2022/`. The page content is partially obscured by a Windows Security dialog box. The dialog box, titled "Windows Security", is for `iexplore.exe` and displays the following text:

The server `cosapp.rclgroup.com` is asking for your user name and password.

That server also reports: "`cosapp.rclgroup.com`".

Warning: Your user name and password will be sent using basic authentication on a connection that isn't secure.

The dialog includes input fields for "User name" and "Password", a checkbox for "Remember my credentials", and "OK" and "Cancel" buttons.

The background page shows an "Unauthorized" error message: "You are not authorized to view this page". It also contains a "Refresh" button and a link to the RCL Group home page.
